THE COMING ELECTIONS AND THE ISSUE.

It is proper at this critical period of our national existence that every man who has the good of the country at heart should ask himself what are the coming elections to decide? In analyzing the situation he must cut loose entirely from all the narrow and sectional ideas which have so much influence when no great question is before the people. He must weigh the matter in its widest sense, and North, South, East and West seek for the general welfare. The salient question which above all others forces itself into notice is that of civilization versus barbarism. It is the question which we have been fighting to decide. In 1861 we found half of our territorial extension and one-third of our white population wedded to a semi civilized element, which, wherever its touch was felt, left its inherent curse. The black contact forced us into a four years' exhaustive war, filled the land with civil hatreds, heaped a debt upon us that makes us stagger, and unsettled the whole national progress. No sooner have we shaken off the one curse—of four millions of slaves—than this same black element springs into a new and even more threatening attitude than ever it before possessed.—This time it takes head and front as a compact and unrelenting ruling power, ignorant, and consequently lacking in judgment, and swayed entirely by passions which are stirred to action by the most unprincipled of the demagogues who make our system of government a mockery. Here this element stands to-day, demanding the same rights, the same power, the same consideration as any equal number of the population of the United States, no matter how many centuries of toil they have had to reach their present standard of civilization.

Let us suppose, for a moment, that four millions of negroes from Africa could be landed *en masse* upon the shores of the Northern States, with brains undeveloped, steeped in a barbarism that a forty centuries' contact with the earliest civilization of the world never could penetrate, who is there among us that would engraft such an element upon our political fortunes and stake the future of the country upon the result? And yet this is the very thing that the crazy politicans are attempting. The power which the concentrated energies of the nation gave them in the war, they would preserve by raising into existence a worse political curse than slavery.

Did we raise the sword to cut loose from the barbaric element only to bind it the tighter to the throat of the nation by after legislation? Strange results indeed, of all our efforts. Surely our legislators cannot understand the will of the people, much less their good, when they undertake in a worse form to fasten upon them this negro question. Our politicians are organizing here a magnificent edition of St. Domingo, Soudan and Central Africa. Here we were laboring to establish all that was lofty in civilization. We were making brain power the standard of the man; we were driving on our car of progress at a pace that threatened to leave Europe far in the rear. In the midst of all this we stoop to Africa and voluntary force into existence a barbaric power worse than any that ever flooded Europe. Europe had an invasion of fresh and vigorous brains from the North; ours is of brains cooked to a crisp under more than forty centuries of African sunshine. No folly in the whole progress of civilization equals this one. Not in the range of all history can be found an instance where a nation voluntarily receded in civilization. Nor can we believe that our people, by endorsing the action of the radicals, are about to retrace their steps and lapse into barbarism.

From the New York Journal of Commerce.

CONGRESSIONAL COMMITTEES.

The modern legislative process of investigating all subjects by the agency of committees has many advantages, but some strong counterbalancing objections. Inquiries for the purpose of bringing out facts not connected with politics, may be prosecuted most successfully by a committee.—There are many matters of comparatively small importance, which would occupy the attention of the House or Senate a whole day, if fully examined and discussed there, but could be more intelligently investigated by a small committee in a private room, reported by them, and passed without debate on the faith of their good judgment.—In all such cases the committee, standing or special, is a short and safe cut for business which would otherwise linger a long time in the devious ways of legislation. But when committees are appointed to consider questions having a strong political bearing, they are too apt to be influenced by party prejudices, and give judgment accordingly. Committees are always composed to represent the political majority of a legislative body; and it is only for form's sake that the minority is represented in it at all. It would not look quite right to make up a committee of Republicans or of Democrats exclusively; it would expose the dominant party to charges of secrecy for purposes of fraud, star chamber practice, &c.; and so the minority is a representation in committees. The result when political interests are at stake is always the same; the majority report in favor of their party, and the minority the other way. When a partisan advantage is to be gained—as it often is—by making a great splutter and dragging out the investigation to an indefinite extent, the majority always adopt that policy. They summon witnesses from all parts of the country, they fill the newspapers with rumors and reports, they adjourn at intervals, and then attack the subject with fresh energy. And when they do report they invariably time the act to meet the necessities of their party. If an election is pending, which might be injuriously affected on their side by the appearance of their report, then it does not appear, even though it may be all ready, but slumbers in the pocket of the chairman until that crisis is passed. Sometimes legislative committees perform the office of tombs. Cases go into them that never come out again—cases which not even the resurrection day will bring to light. More often, however, they serve as dormitories, where subjects are put away to sleep out an excited condition of the public mind, to reappear only when the world has forgotten or ceased to care about them. Under all these circumstances committees do not fulfil their legitimate object, but little will and deceive the people, and are fruitful causes of fraud and injustice. Such is the natural history of the genus, Legislative Committee. The worst species of the family is the Congressional. It is a type of all that is bad in the committee system. We have commented upon this subject at this time because some of the most important of the Congressional committees have resumed their sessions, or threaten to this week. Such are the Committee on Elections, now considering the great case of Barnum *vs* Barnum; the Judiciary Committee, which is trying to find out whether Maryland does or does not possess a republican form of government; the Committee on the Maltreatment of Union prisoners of War, and Butler's Assassination Committee. If these committees shall expend some thousands of dollars each on witness fees, stationery and incidental expenses, and at the end of six months or a year produce anything different from the ordinary run of committee reports designed to gratify partisan malice or serve party ends, we shall confess that we have been agreeably disappointed. And we conclude by saying that it is not easy to suggest any remedy for the evils of which we complain, except the purification of Congress by the election of men who will rise superior to the prejudices and the mean requirements of party, and will refuse to do the white washing or the blackening of reputations, and the other unclean work which is so often put upon Congressional committees.

From the National Intelligencer.

THE ELECTION IN VIRGINIA.

The result in Virginia turns out to be what might have been anticipated from a fraudulent registration and an artful gerrymander. The negroes were secured a majority of the thirteen in the Convention by the partiality of General Schofield, and, as they have voted in a solid phalanx, they have carried the State. In some districts the races were so closely balanced that a very small number of mean and malignant whites have sufficed to give the victory to the African ticket.

In the city of Richmond, although largely overborne by registration frauds, the whites made a contest worthy of their race. It was known that a great many negroes had come in from the counties and been registered. Had the election been held on one day all over the State it would have been difficult for these "loyal" spirits to have voted the Radical ticket more than once. With a skillful adaptation of means to ends the military commander gave two days for the election in the cities of Norfolk and Richmond, which the whites were vigorously contesting, with a fair prospect of success, if the election should be honestly conducted. At the close of the two days previously prescribed, it was feared by the Radical managers that they were still behind hand. It was necessary to bring in more voters from the country. A man must be found for every name on the registration list. To entertain such a wish was sufficient. General Schofield gave them another day, and Richmond was carried triumphantly for the Radical ticket, with Hunnicutt and Judge Underwood at the head.

The character of this fellow Hunnicutt is pretty well understood. His incendiary suggestions for a war of races, his persistent efforts to incite the blacks to hatred, agrarianism, rapine and anarchy, have not passed unnoticed or unrebuked by the moderate portion of the Republican press. And yet this man "Hunnicutt" is chosen by the Radical party in the leading Southern City to form a Constitution for a great State. This creature is the great leader of his party in Virginia.

The facts we have stated, the intimidation practiced by the Loyal Leagues, the array of race against race, the attempts of these demoralized blacks to consummate their newborn privileges by the attempt to murder in open day Conservative men of their own color; and above all, the vile frauds of an election held under bayonets in this old Commonwealth, which bore so prominent a part in framing our Constitution and Government—all furnish matter for grave and indignant reflection by every true patriot and considerate citizen.

THIS COMPANY ISSUES TEN YEAR NON-FORFEITING ENDOWMENT POLICIES, contracting to pay the amount insured at death or the specified time.

An endowment policy presents the double attraction of providing for one's family or other dependents, in case he should be cut off before a specified age, or of securing to himself independence, in case he attains the age. Thus insuring for ten years, a note for one half of the cost will be taken by paying six per cent interest.

This plan gives, in addition to all the advantages of life insurance, a safe and convenient INVESTMENT for one's savings, till they have accumulated to a definite amount; which he receives in one sum at the specified time.

ELECTION TICKETS!!

We were misled by others, without giving it any reflection, in supposing that the Election Tickets should be printed on both sides. It is evident that this is not only not necessary, but that it is objectionable, inconvenient and more expensive than necessary.

The tickets should be printed on one side, thus:

For a Convention.
(or, as the case may be,)
Against a Convention.

(Here print the name or names of delegates.)

Such tickets, for the Conservative candidates, will be provided for $1.25 cash per 1,000, postage paid, at this office. Orders are invited. The cash must accompany the orders.

THE CONSERVATIVE MEETING.—JUDGE MERRIMON.

We have never spoken of organizing a Conservative *party*, or a Constitutional Union *party*, or any other kind of *party*—We are opposed to the formation of *any kind of party* in the South, until we are recognised by the party in power as having our share of control in the affairs of the National government. We regard the formation of the Republican or Radical party in the South as the greatest impediment to the restoration of the harmony and peace of the Union, which could possibly have occurred. The greatest enemy living to the whites and blacks of the South—to the peace and prosperity of the South,—is the Republican or Radical party. It has labored assiduously, in every way, to alienate the two races—to embitter the blacks against the whites—to irritate the whites to the extent of resenting the course of the blacks and of retaliating upon them. It has filled the minds of the blacks with ambitious expectations and hopes, which are not intended to be gratified, only as a means of the elevation of the white Radicals; it has encouraged indolence and bad manners among the blacks, and it has been a chief cause of the present depreciated productiveness of the Southern States. Its triumph in the Southern States will entail untold miseries upon both races.

A political party, in this country, contemplates the adoption of a platform of national politics, with the view of operating directly upon national affairs, in elections. Now, it ought to be plain to every man of any political foresight at all, that the formation of any such party in the South, with the purpose of co-operating with the Democrats or the Conservatives, or both, of the North, in an election, until the Southern States are acknowledged by the Congress, would effect far more harm than good.

As Conservative men or Constitutional Union men, whether old Democrats or old Whigs, we can, under the spontaneous biddings of our innate love of Constitutional liberty, coalesce and co-operate together to defeat or restrain Radical rule in the South, in our State organization; we can sympathize with and give our moral support to the triumph of the principles of Constitutional liberty, as developed in the success of the Democratic organization of the North, and we can guard as closely as possible the material interests of the State, but, as to forming a *party*, to act with any of the national parties, under our present circumstances, we can see no good reason for it.

Judge Merrimon, at the meeting on Saturday night, disclaimed all partizan connections or affiliations. He was a Conservative and acted with Conservative men in promoting the restoration of the Constitution and the Union; but the intimation that he advocated either Republicanism on the one hand, or the revival of the Whig party, on the other, is false and wholly unfounded. We know that he stands with us squarely, both as an opponent of Republican or Radical doctrine, and as opposed to the formation of any political party in the South, in our present condition.

The presence of the old secession leader in this State, but now the Radical leader in North Carolina, (Mr. Holden,) at the meeting, could not escape Judge Merrimon's notice. Hence, in giving a brief review of the progress of the revolutionary and antagonistic spirit to the Constitution, which showed itself from 1829 up to 1861, he could not let the opportunity pass without letting slip a number of "sixty-four pounders" at his head. And when he pointed at him, as the leader of that revolutionary spirit, then and now, in North Carolina, and called him his "old friend," we have not heard such outbursts of applause, mingled with derision, for many a day. If others felt it, they took what was by no means intended for them. *They* have not placed themselves in such a category, and never will.

We learn that the Grand President of the League in this State, and other lesser Republican or Radical lights in the city, claim to have been much pleased with Judge Merrimon's speech and to have regarded portions of it as being Republican. This is a rich joke. It was, throughout, one of the most withering rebukes of the revolutionary spirit of the Republican party, we have ever heard. If we were disposed to trade in that kind of commodity, we would not hesitate to offer $10 a-piece for every Republican word or sentiment contained in that speech. The truth is, many of these men are so thoroughly selfish or partizan, and are so reckless of principle, that they either do not know or care what Republicanism or Radicalism is, so they can get the offices and keep their hands on the purse of the government.

Republicanism, of every shade, bases its whole superstructure upon the ridiculous fallacy, that because "all men are created equal" according to the Declaration of Independence, *therefore*, all men *are* equal, or *ought to be made* equal. The "moderate" are as much wedded to this fallacy as the ultras. But the former would fix this fallacy in the Constitution and into the settled policy of the government, by persuasives and by military rule, since we rejected the Howard amendment, while the ultras would force it by confiscations, and fire, and sword. There is the difference, in a nutshell, between ultra Radicals and moderate Republicans. They all hold to negro equality—the inherent equality of all races, as a sequence of the fallacy eliminated from the expression, "All men are created equal." And this forms the web and the woof of the platform and measures of that party. If Judge Merrimon uttered any such doctrine, or anything that could be tortured into it, we did not hear it. Indeed, the very idea is ridiculous.

Truly, there is a quaking of dry bones in the Radical camp. Forney, chameleon Forney, is as pleasant to us now as the buds in June. He represents the knee-quakings and the sweats and tremblings of his party—a party that once dared to threaten the masses of the North, and is now reduced to an attempted cajolery of the conquered South.—*N. Y. Herald.*

The nervousness of Forney is not, by any means, the only indication of the effect that has been produced upon the spirits and utterances of the party by the results of the recent elections and the unmistakable signs of a re-action in public sentiment at the North.

In Ohio, Gen. Hayes, the Governor elect, "thanks Heaven" that the negro suffrage issue in that State has been effectually disposed of for a long time to come.

Chief Justice Chase, alarmed at the political prospect, authorizes the declaration that he has always favored general amnesty, opposed confiscation, and is, in reality, a very fair "Conservative."

Mr. Goodloe, in a letter to the last *Register* from Washington City, says that the results of the recent elections in the North are convincing the "Republicans" of the folly and danger of denouncing the white masses of the South as public enemies and threatening them with pains and penalties, if they refuse to identify themselves with that party.

A private letter from a prominent gentleman at the the North, of decided "Republican" affinities, says: "I think that the people feel that the result of the recent elections was about right. For there was an impression that if the Republicans had been successful, it might have been taken as an endorsement of impeachment, which would convulse the country and paralyze its business prospects."

If the elections in the several States, on Tuesday next, shall indicate that the re-action is still on the increase, we shall hear no more, probably, of impeachment or of confiscation by the general government, and shall witness a general shaking of the knees among the Radical leaders and presses.

THE RADICAL paper of this City, we learn, has a long appeal to the working men of this City and State to go with the Radicals. Such an appeal is a direct insult to the intelligence and virtue of every white working man in the State.

The baleful influences of Radicalism upon the colored working men of the South stand out so prominently to every man, that none are so blind they cannot see. The actual product of the colored labor of the South is, to-day, less, by one-half, if not more, than it was in 1860.

If, under two years of Radical instruction, the colored labor of the South has depreciated more than one half in value, what would be the effect upon the white working men of the country, if all of them were to forget that they were *white*, and all tumble in together in a heap to do nothing? If the white laboring men of the South can see an inch from their noses, as at least nineteen twentieths have been in the habit of doing for some time, they will not touch Radicalism, or any of its advocates, with a forty foot pole.

IN FREDERICKSBURG, Va., two colored convicts were taken from jail by one Lieut Merritt, permitted to vote and then remanded to prison. Of course they voted the Radical ticket.

At another precinct, in the same county the votes of two colored *absentees* were received.

IN VIRGINIA, a negro has been elected to the Convention from the home of Henry and Randolph.

CONSERVATIVE MEETING IN PANTHER BRANCH DISTRICT.

At a meeting of the citizens of Panther Branch District, on motion of J. J. L. McCullers, Esq., Dr. A. E. Smith was called to the chair, and S. M. Utley requested to act as Secretary.

The object of the meeting having been explained in a few remarks,

On motion, the Chairman appointed the following named gentlemen as delegates to a County Convention, to be held at the Court House in Raleigh, on the 31st. inst: Messrs. J. J. L. McCullers, W. D. Turner, W. A. Myatt, H. B. Jordan.

On motion, S. M. Utley and A. E. Smith were added to the list of delegates.

It was then suggested that three suitable persons be recommended to represent the people of Wake county in the approaching State Convention.

Upon which Judge Fowle, Judge Merrimon and S. F. Phillips were unanimously selected.

There being no further business, the meeting then adjourned.

A. E. SMITH, Chm.
S. M. UTLEY, Sec'ry.

NEGRO SENATORS AND REPRESENTATIVES.—Do the Northern whites want negro Congressmen? If so, they will probably be gratified. The likelihood is that, under the present plan of reconstruction, they will have negro senators and representatives from every Southern State.—*Rich. Whig.*

TWENTY DAYS.

In twenty days from to-day, the election take place. In every one of our sister States, in which elections have thus far been held, under the so called "Reconstruction" Acts of Congress, they have been decided in favor of the ultra Radical party, numbering, in each case, an insignificant number of whites and almost the united mass of negroes. In most of the States, the majority of the whites have not voted at all, either upon the question of a Convention or for delegates. This has been because of indifference,—a sad evidence how rapidly our people are becoming educated to oppression; of repugnance to having anything to do with the unconstitutional and iniquitous programme prescribed for them by the Radical Congress; or of hopelessness of being able to reverse results pre-determined by the apportionment of the District Commanders, who, in the interests of the power to which they look for support, have ignored majorities and stifled the voice of the Conservative element, wherever it was in the ascendant.

We beg again and again to impress it upon the minds of our people, that the white men in North Carolina, even under the partial system of Registration, have a majority of nearly, if not quite, 30,000. It is true, that we have good cause to complain of Gen. Canby's apportionment, but it does not leave the Conservative men of North Carolina without a good opportunity of defeating the vile schemes of ultra Radicalism. There is but one difficulty in the way: If our conservative people, who are qualified to vote, will *organize*, WORK AND GO TO THE POLLS AND VOTE, we can secure the ascendancy in the Convention and rescue the State from the blighting curse of Radical and negro domination.—We do not believe that it will be possible to defeat a Convention. Any advice, therefore, to our friends not to vote on that question, we are apprehensive, (with all deference to the views of those who differ from us,) will but have the effect, if adopted, of inducing them to stay away from the polls altogether. If they do this, we may expect the fate of Virginia,—proud and noble old State, cursed and degraded with the rule of Hunnicuttism.

Vote, then, Conservative men! Vote upon the question of a Convention, as you please,—for, in a matter of such grave moment, every man should consult the suggestions of his own judgment and conscience,—but be certain to *vote* one way or the other, and for good, honest, reliable men to represent you in the Convention who will oppose, to the bitter end, the mad, revolutionary and wicked purposes of that ultra Radicalism, which would throw these fair States under negro domination, paralyze industry, cripple trade, and destroy every vestige of Republican liberty!

ANCIENT RELICS.

WASHINGTON, D. C., Oct. 26th. 1867.

Messrs. Editors:—

"The car of victory, the plume, the wreath,
Defend not from the bolt of fate the brave;
No note the clarion of renown can breathe,
To adorn the long night of the lonely grave,
Or check the headlong haste of time's o'erwhelming wave."

Back! back! back! before the birth of Christ, over the pyramids, behind the deluge, and still further back, years after years, and ages after ages, into the mouldering records of time, and you may form some idea of the great antiquity of the relic, of which we are about to speak. It is a human skull, taken, we are informed, by scientific men, in the year 1866, from a shaft sunk in a mining claim, at Saltarville, Calaveras County, California, at a depth of about 130 feet. An interesting history of it, though published some months since, may not have been seen by many of the readers of your Journal, hence we copy it.

The following is given as the various deposits passed through in sinking the shaft, which is one hundred and fifty-three feet deep to the bed rock:

1. Black lava	40 feet.
2. Gravel	3 "
3. Light lava	30 "
4. Gravel	5 "
5. Light lava	15 "
6. Gravel	25 "
7. Dark brown lava	9 "
8. Gravel	5 "
9. Red lava	4 "
10. Red gravel	17 "
	153 feet.

The skull was found in bed No 8, just above the lowest stratum of lava, and with it were found fragments of solidified wood, the whole being covered and partly encrusted with stony matter. It is further said: "This relic of human antiquity is easily seen to be an object of the greatest interest to the Ethnologist as well as Geologist. The previous investigations of Geological Survey have clearly demonstrated the fact, that man was contemporaneous with the Mastodon and Elephant, since the works of his hands have been repeatedly found in such connection with the bones of these animals, that it would be impossible to account for the facts observed on any other theory. But in the case of the skull now laid before the Academy, the Geological position to which it must be assigned is apparently still lower than that of the Mastodon, since the remains of this animal, as well as the Elephant, which are abundantly scattered over the State, are always limited in their position to the superficial deposits, and have never been found at any considerable depth below the surface.

"There is every reason to believe, that these great proboscidates lived at a very recent date, Geologically speaking, and posterior to the epoch of the existence of glaciers in the Sierra Nevada, and also after the close of the period of achirites of the now extinct volcanoes of that great chain. In fact they belong to the present epoch. The bed, on the other hand, in which the skull was found, must have been at a time, when the volcanoes of the Sierras were still in vigorous action, and, as seems highly probable from a careful consideration of the Geological stratum of the region, previous to the glacial epoch of the Sierra, and also previous to the erosion of the courses of the present rivers."

The skull is very thick and strong, and is believed to be an Indian's. It is stated as certain that the facial angle is not indicating a low order of intellect.

Almost simultaneously, we are told, similar discoveries of human bones were made in Belgium, the antiquity of which cannot be contested, since they are covered by several beds of stalagmites, upon which rest the deposits of the Reindeer age. The jaw discovered there differs from those of the races found in Europe, at the present day, in its forward prolongation. Let Theologians count the time, since the creation of the world, six thousand years, or Geologists prove it to be six times six thousand, and as many more years added to that, and how could it affect the religion of God or the present plan for the salvation of man?

But as it was with the discovery of Babylon and Nineveh, so it may be with the discovery of these very ancient relics of the human family. Those two mighty cities, of a day's journey, remained wrapped in their ashes, unknown to the world, for centuries upon centuries, and as soon as it began to be doubted whether they could once have been of such immense size and importance as sacred history informs us, and then their very location pass from the memory of man, we behold their discovery, and the stork rise up from their ruins before the traveler, and the halls of the palaces, the dens of the wild beasts, as predicted in the Bible, far back into time.

Now, what means the discovery of these bones almost at the same time, in different parts of the world, at such a depth that leaves no doubt of the existence of man before the Mastodon and other extinct animals? Perhaps time may tell, without conflicting with the theory of the Geologist or the religion of the Theologian. D.

THE VIRGINIA ELECTION.—The results, so far, of the Virginia election show, first, that a convention has been called, and, secondly, that as was designed in the fraudulent apportionment of districts, the Radicals will have a majority of at least ten in that body. Beyond this there are certain other facts evinced, and prominent among them is the startling circumstance that to the negro mind suffrage means to vote the Radical ticket and then mob those who do otherwise. A poor devil scuttling away from the polls with a mob at his heels, yelling "kill him!" is not a very pleasing spectacle for "the nation" to contemplate, and yet this is the view that the nation's ward seems to take of his "rights." What these rights will amount to in the convention, at this rate, it is not hard to conjecture, especially as in that convention there is, as stated, a clear majority whose every hope of political performent depends on pleasing the blacks. Confiscation and disfranchisement are already talked of, and as the whites will most assuredly stand upon their defence, we may look, if this programme is not interfered with, with some tolerable certainty for a clash of arms.

Another fact about this election is that but for the presence of military force there would have been serious riots at the polls. Like causes producing like results we may look to see these troubles continue just as long as there are mixed elections, nor can any power avail to prevent bloodshed save that already invoked—"infantry with fixed bayonets and cavalry with drawn sabres."—What a spectacle. The birthplace of Washington a Poland, in which, at the mouth of United States cannon, is kept up the farce of a free government. And yet this is all that Radicalism, with illimitable powers has been able to effect.—*N. Y. World.*

The Baltimore *Gazette*, in commenting upon the Virginia elections, speaks of the indifference to negro domination manifested by the northern people, who, it happily says, "are sitting as the people were sitting in the circus of Pompei when the lightnings began to play fitfully over Vesuvius, and the first flakes of the ashy shower which afterwards enveloped them went drifting through the air."

For the Sentinel.

Editors Sentinel:—When your correspondent "Looker On" disported himself with innocent jocularity round the poor old State, and the still poorer old University, he did not suppose that any body could be found quite so obtuse as to mistake his drift, or charge him with any thing like offensive personality. You, dear *Sentinel*, like a gentleman as you are, put the cap at once on the only head it was designed for, namely, our gracious public's. North Carolina needs to be roused, and I thought even a gnat might do something towards it.

In regard to the State University, the writer, who subscribes himself "Idem," writes in a straight forward common sense way that nobody can mistake (not even an Edgecombe man.) But the curious part of the whole business is that the friends of that Institution should be discussing plans and theories for reform and reorganization up there, before they have secured a cent to go upon. The first consideration should be *money*,—the second should be *money*,—the third should be *money*. Then they may talk about systems and departments and schools. What I want to know is, where it is to come from. The gentlemen who present us with their carefully elaborated views of University reform are much as if somebody should present me with a copy of Mrs. Barringer's cookery and tell me to keep house accordingly, when my purse and pantry are both empty and likely to remain so.

Seriously, the only feasible plan that presents itself for the relief of the State University, is for the Trustees to appeal directly to the people. Is there no old graduate who would undertake to canvass the State in its behalf (*expenses paid*—let the Trustees make a note of it)? There's the Hon. Z. B. Vance, D. D. (or was it LL. D? I forget. Never mind however, the *Standard* has d——d Vance so often, he may be qualified to assume any degree.) If Dr. Vance will take the stump, he will have audiences.—We promise him that, at least, in advance. And if he is not sufficiently a man of letters now, the University in its gratitude will pledge itself to dub him with the whole alphabet all the way down to an "unknown quantity."

If there is any prophet among us likely to coax water out of a rock, or money from the pockets of a North Carolina audience, Gov. Vance is the man. No one else in the State has so large a share of personal popularity—so much of the public confidence.—We delight to hear him. We delight to honor him. I feel enthused as I contemplate the possibility of his coming down this way, and am certain that I shall want to pledge, in response to his summons, the whole of my wheat crop for this year, amounting to precisely fifteen bushels and a quarter. More than that, right here I make a proposition, and I do it now for fear some of those Scotch Presbyterian farmers in Harnett and Cumberland will get ahead of me in the offer: If any body will present me with one hundred bushels of wheat, I promise to bestow twenty five on the University, immediately. Similarly with potatoes and corn. I can't say fairer than that, and wonder how many more will do as much. Say for instance that I send the Wilson *Carolinian* one hundred new subscribers, will the Editor send the money for twenty-five of them to the relief of the University, or would he find out about that time that I must be joking?

If Gov. Vance will enlist, generously, for he will make nothing by it but the letters aforesaid; zealously, for the honor of those old groves and the love of virtue and science; and promptly—for the time is short—if he *will*—and if North Carolina will not hear the voice of her favorite son, will *not* be stimulated into activity by his eloquence,—why then we may as well give up for the present. I acknowledge that the case is hopeless and that the present generation of North Carolina has indeed, as to things intellectual, sunk into the fatal stupor which precedes and forebodes death.

LOOKER ON.

VIENNA, Oct. 24.

DIED:

At his residence, near Louisburg, on Friday, the 25th day of October, after a long and painful illness, NICHOLAS B. MASSENBURG, in the 63rd year of his age.

MR. MASSENBURG was for many years a prominent citizen of the County of Franklin, and enjoyed, in an eminent degree, the confidence and esteem of his fellow men. He was endowed with rare business faculties, and his death is a loss to the community. He was, for more than a third of a century, an active and devout member of the Methodist Church, and in all the relations of life he was a good man. As a Christian, he was devout, meek, active,—striving to imitate his great Exemplar. Full of the spirit of charity and forgiveness, the writer of this, who had ample opportunities of knowing well his thoughts and feelings, never heard him, even under circumstances calculated to elicit the harsher expressions of our nature, utter an unkind word about those with whom untoward events had brought him into controversy. As a citizen, just and faithful; as a neighbor, kind; as a friend, sincere; as the head of a family, full of love, and greatly beloved in return; his loss is deeply felt by all around him. His death was like his life, that of a devout and pure Christian. So far as his future was concerned, he had "arranged for that long ago," and was ready to die. His suffering was great, and when told, in reply to a question asked by himself, that he might live a day or two, he manifested some impatience at the delay, but checking himself, said, "but God's will be done." With his intellect clear to the last, his death was a bright exemplification of the sublimity of Christian hopes. He left a wife and large family, but the loved ones who mourn his death have a bright example to follow, and may feel the consoling assurance that he has gone to that

"—— —— land of pure delight,
Where Saints immortal reign,"

and that, by living as he lived they may meet him in that happy land of "everlasting Spring."

At his residence, near Huntsville, Yadkin Co., on the 2d inst., LARKIN LYNCH, Esq., Mr. Lynch was a most worthy and respected citizen.

In this City, on yesterday, at 11 o'clock, A. M., Mrs. SALLY MURRAY, wife of James H. Murray, Esq. Mrs. Murray was an excellent woman, respected and beloved by all who knew her.

LOCAL DEPARTMENT.

NEW ADVERTISEMENTS.—A young lady, of the finest qualifications, desires a situation as Teacher or Governess in a private family, (in Raleigh preferred.) See advertisement.

Richard N. Taylor, Wholesale Grocer and Commission Merchant: Corner of Craven and South Front Streets, Newbern. Wm. H. Willard is special partner. Mr. Taylor is a gentleman of reliability, energy and ripe business qualifications, and will attend to all matters entrusted to him promptly and faithfully.

Georgia State Lottery, for the benefit of the Masonic Orphan's Home: Drawings at Atlanta, November 6th and 13th.

Labor-Saving Pump, and everything desirable for Planters and Mechanics: Mitchell, Allen & Co., Newbern.

"What is Baptism?"—a new Southern Theological Work, by Rev. T. B. Kingsbury: Williams & Lambeth, Booksellers and Stationers, Fayetteville Street.

The Dwelling, &c., opposite the Bank of N. C., is for rent for 1868: Apply to T. H. Selby.

DELEGATES TO THE COUNTY CONVENTION.—We understand that it is asserted that some of the delegates to the County Convention, to-morrow, who were appointed by the Conservative meeting in this City, on Saturday night, do not sympathize with the movement in its opposition to Radicalism. We do not believe this. If, however, it is so, it will be very easy for any thus circumstanced to let it be known. We hope they will do so. We want no *doubtful* support. This is a time for every man to speak out and show, unmistakably, where he stands.

OYSTERS!—From and after to-morrow, our friend, W. Robert Andrews, Family Grocer, Fayetteville Street, will be in receipt, daily, of fresh Norfolk oysters. Our citizens will recollect that, last season, the finest bivalves in the market were to be had at Andrews', and his arrangements are such, the present winter, that he will continue to furnish the choicest and best. We advise all, therefore, when they feel like luxuriating on these delicacies, to leave their orders at Andrews'.

SALE CONTINUED.—The auction sale of Messrs. Pulliam, Jones & Co., on yesterday, was well-attended. It will be continued to-day, commencing at 10½ o'clock, A. M.

WILMINGTON AND WELDON R. R.—We were glad to meet, on yesterday, Hon. R. R. Bridgers, the energetic President of this Road. He informs us that he has succeeded in funding the debt of his Road to the amount of $500,000 in 7 per ct. bonds, running 30 years, at 85 and interest added. This is considered very favorable. The loan was effected in Baltimore.

MECHANICS' ASSOCIATIONS.—We have, for some time, intended to call the attention of the Mechanics of this City, and of the State, to the importance of forming, at an early day, Mechanics' Associations. We hope the Mechanics of this City, of every branch of industry, will take the initiative. These Associations, when properly constituted and based upon sound and liberal principles, and persevered in, have done great good. In the South, especially, these Associations were never more necessary than at the present time, if so much so. Unfortunately, heretofore, our people have exhibited little or no stability in keeping up any kind of Association which a momentary zeal would stir them to set afloat; and our impoverished condition now requires that, in whatever we engage, it should be done on the most economical plan.

It is to the interest of every Mechanic, to elevate the standard of the Mechanic Arts of all kinds, by encouraging skilled labor, by encouraging every improvement in taste, style and artistic beauty, and promoting intelligence and thirst for information among all classes of citizens. The Mechanics of the State should look to these things, and there is no better time or place to begin the movement than this and here.

We need for the growth of our city, energetic, intelligent and skilled labor. We must have also a greater division of mechanical labor. Too many pursuing the same avocation often hinders the whole. We want to see every species of mechanics undertaken and carried out successfully. The regulation of the apprenticeship system is a very important matter, and one to which the highest experience and intelligence should be directed.

Every gentleman, whether a retired mechanic, or an employer, or a journeyman, or a regular apprentice, should be made interested in this organization. All the means and intelligence of all specially interested in the improvement and advancement and prosperity of mechanics and mechanic arts, ought to take hold of it. They should have a hall and inaugurate as soon as possible free lectures, especially on subjects pertaining directly to their own interests.

We call the attention of our Mechanics to this matter to-day, and would urge upon them an early meeting.

STATE ITEMS.

—The Conservatives of Iredell will meet in Convention, at Statesville, on Saturday, to appoint delegates to a District Convention, to be held in Taylorsville on the 6th, prox., to nominate five candidates to represent Iredell, Wilkes, Alexander and Caldwell in the State Convention.

—The Fall Term of the United States District Court met in Newbern on yesterday. The *Journal of Commerce* says that the proceedings will be unusually interesting,—several very important cases being on the docket.

—Messrs. W. W. Forebee, Henry R. Bryan and J. W. Biddle will be voted for, by the Conservatives of Craven, for the Convention. This is a most excellent ticket, and we hope that our friends in Craven, though in a minority, will rally to its support.

—At the annual Meeting of the Stockholders in the Wilmington, Charlotte & Rutherfordton Rail Road, held in Lincolnton on the 23d instant, the following gentlemen were elected as the Board of Directors:

R. H. Cowan, J. A. McDowell, S. W. Cole, A. G. Logan, S. J. Person, W. L. Steele, S. H. Walkup, C. C. Henderson, A. R. Homesly, R. S. French, H. W. Guion, J. M. Hutchinson, John D. Taylor.

At a meeting of the Directors held subsequent to that of the Stockholders, Col. Robert H. Cowan was re-elected President; Messrs. B. S. Guion and W. I. Everett, Superintendents of the Western and Eastern Divisions respectively; Messrs. V. A. McBee and I. T. Alderman, Treasurers, and W. H. Allen, Master of Transportation.

The Report of the President and Directors made a favorable exhibit of the affairs and prospects of the Company. Its credit was represented to be equal to that of any similar corporation in the South.

It was resolved to propose to the Western N. C. Railroad Company a joint survey of a route from Morganton to the nearest point on the Tennessee line—said to be about 60 miles—and if the proposition was not acceded to, then this company to have the survey made. It has the privilege of connecting with the Western Extension at any point it pleases.

—C. S. Moring having withdrawn, Thomas Henderson (negro) is announced as a Radical candidate for the Convention in Rowan. The *Banner* says that he is about as much fit to be a member of a State Convention "as a jackass is for a lady's riding nag."

—We learn, from the *Register*, that the following persons have been adjudged Bankrupts in this State, viz:

W. F. Sanderson, Washington county; Robinson White, of Pasquotank; John W. Hinton, of Gates; Richard Keough, of Chowan; C. W. Skinner, jr., Chowan; Joshua Swift, of Washington; Zero Hamilton, of Camden; James R. Dillon, of Washington; John L. Wood, Pasquotank; R. S. Dashiel, Pasquotank; W. N. Andrews, Wake; J. B. Fearing, Pasquotank; Jones Watson, Orange; W. P. Mallett, Orange; R. K. Speed, Pasquotank; John R. Harrison, Wake; T. E. Skinner, Wake; W. B. Smith, Wake; B. F. White, Pasquotank; B. F. Keaton, Pasquotank; J. G. Bromell, Wake; W. H. Hughes, Granville; Williford Upchurch, Wake; John T. Williamson, Wake; W. F. Snipes, Chatham; Reddin Bridgers, Wilson; Silas Webb, Carteret; J. A. Leland, Craven; Mrs. E. C. Yancy, Orange; Samuel Carson, Washington; William Shannon, Pasquotank; Sims Upchurch, Chatham.

BROTHERHOOD AMONG ALL WHITES.—We greet joyously the announcement in the Lynchburg papers that another party of English immigrants has arrived, under the auspices of the Virginia Immigration Society. They are said to be especially suitable for farm hands, gardeners, &c. Our pleasure does not grow out of the fact that they are Englishmen, but that they are whites.—So the immigrants that come among us are whites it matters but little whence they come. All are welcome—whether from England, Ireland, Scotland, Wales, the German States, Poland, France, the Northern States, &c., &c. We can make room for all. As we said yesterday, the circumstances in which we are placed make it necessary that we shall redouble our exertions to attract immigration to Virginia, and shall present such inducements as cannot be resisted.

We should welcome with outstretched arms every white man who comes among us, and treat them as a neighbor, a friend, and a brother. The resentments between the Northerners and Southerners must be buried, and when the former come to reside amongst us, we must deal with them as if they were our own people. The negroes have chosen to draw the line between the two races, and we must hail every white man (not of the Hunnicutt stamp) as a friend and brother.—*Rich. Whig.*

The Election here passed off quietly, save a disturbance occasioned by some of the colored men making an effort to mob Albert Wooding, a colored man, for voting the conservative ticket. Albert thinks he owes his life to the gallant conduct of one of his own race who came to his rescue and defied the crowd to lay their hands upon him. Such scenes, on election days, are novel to us in old Virginia. But this is a progressive age.—*Danville (Va.) Times.*

Charles Leland is the man who said that "a New Englander's idea of hell was a place where everybody had to mind his own business;" which is as crisp as Macaulay's saying that the Puritan hated bear-biting, not because it gave pain to the bear, but because it gave pleasure to the spectators."

The Tennessee Legislature have enacted a law making it punishable for common carriers to make any discrimination on account of race or color. This places the negroes on an equality with the whites on the Tennessee railroads, &c.

A Radical paper announces that all the tried statesmen are with the Republican party. Certainly all the "tried," indicted and, convicted "statesmen" are in that party, and the people are asked to endorse them.—*World.*

Tuesday Afternoon Dispatches.

FRIGHTFUL STORM.

NEW ORLEANS, Oct. 29, M.

The *Picayune* has the following:

"The latest advices confirm the destructive effects of the late storm upon the Rio Grande.—The *Ericcos* says the hurricane was the most terrible in the memory of any man on this frontier. A perfect bombardment for a year could hardly have done as much damage as happened from one night's storm.

At Matamoras, twenty-six persons were killed; at Brownsville ten were killed and twenty-one wounded. So far as known, twelve persons perished at Brazos. Only two houses were left at Clarksville, and none at Bagdad. The loss of life at the latter place is not known. Ninety of the inhabitants escaped by going on board a vessel which ran out of the storm; the rest must have perished.

The negro soldiers and their officers, at Brazos, are said to have acted infamously. They not only refused all assistance to the struggling and suffering females, but returned to the sheltered part of the Island. The soldiers returned next day to rob the wrecked goods or remains of the ware-houses and dwellings. One of them shot and killed a citizen, who caught him robbing.—Their officers are said to have done nothing to check their brigandisement.

From Tobon there is a long list of damages."

POLITICAL MATTERS IN GEORGIA.

AUGUSTA, Oct. 29, M.

The Republicans held a mass meeting last night, and the Republican candidates made speeches.—Steps are being taken to preserve order during the election.

The freedmen are coming in from the country to take part in the election. There are no opposing candidates. The Conservatives, apparently, have determined to take no part in the election.

WASHINGTON NEWS.

WASHINGTON, Oct. 29, P. M.

A hurricane swept Porto Rico on the 13th inst., damaging the shipping and causing the rivers to overflow, greatly damaging property.

Timbers were placed across the track of the Richmond and Fredericksburg Road last night, 16 miles this side of Richmond. The Richmond train, due at six o'clock this morning, was delayed till noon. No one was hurt.

The Cabinet was in session two hours to-day.—Grant has returned.

Revenue to-day $297,000.

Joseph H. Bradley, who was debarred by Judge Fisher, at the close of the Surratt trial, has been ordered to show cause by the 4th. of November why he should not be punished for contempt of court. In the meantime his suspension from practice continues.

MORE OF OLD HUNNICUTT.

RICHMOND, Oct. 29, P. M.

Hunnicutt addressed a large crowd of negroes on the Capitol Square this evening. In the course of his remarks he alluded to certain threats made to kill, and said: "I will not leave. Don't you know, fellow citizens, that whenever the assassin's bullet passes my brain, or his dagger touches my heart, more than one white man will fall upon that day." The assembly responded, yes! yes!

GEORGIA ELECTIONS.

ATLANTA, Oct. 29, P. M.

The vote of Atlanta the first day was 614. The result is unknown. Fulton County gives 150 for Convention and 20 against.

SAVANNAH, Oct. 29, P. M.

The election to-day was very quiet. Many of the country negroes, and some from South Carolina, are here in the city to vote.

The City voted 632 and the County 440. About 250 were rejected, all negroes but three or four. All the votes are for Convention, and for the negro Radical candidates. Only one white vote was cast.

COLUMBUS, Oct. 29 P. M.

The election to-day passed off quietly. But little interest was manifested. The Conservatives took no part in the election.

MACON, Oct. 29, P. M.

No whites voted. Negroes had everything their own way.

AUGUSTA, Oct. 29, P. M.

Returns from all parts of the State indicate that the Conservatives took no part in the election.

[It is needless to give details. The negroes alone voted,—unanimously for the Convention and the Radical ticket. In the list of returns furnished by telegraph, but three white men (Radicals) are reported as voting, and one of those voted for himself.]

BLEACHED DOMESTICS, 12½, 15, 20 and 25 cts. per yard, and all other goods in proportion.
Also, the largest and most varied stock of

BREAKFAST SHAWLS,
SQUARE AND LONG SHAWLS,
which will be sold at prices to suit my customers.
Ladies', Misses' and Children's TRIMMED AND UNTRIMMED HATS,—new styles, from 50 cents to $4,00 each.

Boots and Shoes, Boots and Shoes.

The largest and best stock I ever brought to the City, consisting, in part, of J. Miles & Sons' make, and others of equally high standard.
Ladies' Pegged Balmorals, from $1 to $2.
Ladies Sewed Balmorals, from $1,50 to $3,50.
CREECH'S is the place to come to buy your Boots and Shoes.

Hats, Hats, Hats,

From 75 cts. to $4,00. Don't stop until you come to CREECH'S to buy your Hats. In fact, I think I can meet the expectations of all my customers and the public generally, both as to price and quality of All Goods.

Now a few words to my customers and friends: You see a great many different styles of advertisements. Some say they are in "such a style;" some say they have "hit the nail on the head;" some "selling out at cost;" some to "make room for a new stock;" some one thing and some another. But allow me to say, whether I am in luck, or whether I hit the nail on the head, or whether I missed the nail entirely, or failed to advertise "selling out at cost," I have sold out my old stock, while they are still hammering away over their old stock, and have begun New, and have bought a new stock. My goods are now in store, and opened for inspection.

COME AND LOOK AT THEM.

I told my customers, six months ago, that I would sell goods as cheap as Yankee, Jew or Gentile, and I think I have made my word good.

I told the people to come to Creech's to buy their goods, that I would serve them right. Hundreds have come, and they are still coming from this and adjoining Counties. And I here take the privilege to say, I think they have shown their good judgment.

Don't forget to come to

THE SONG OF THE HORSE.

A poor old stage horse, lank and thin
Not much else but bones and skin,
I jog along, week out, week in,
Kicked, and cursed, and mostly fed,
Jammed in the side and jerked by the head
And the thing I can't at all make out
Is, what on earth it's all about?
Why was I made to toil and sag
For this old little human bag,
Two-legged, dumpy as a frog,
Who sits aloft, my ribs to batter—
Or why was he made, for that matter?
And, if I needs must be created,
Why is it that I was not fated
To prance and curvet, finely mated,
Silver-harnessed, sleek and fat,
With groom and blanket, and all that?
Here I go, day after day,
Pounding and slipping down Broadway,
Dragging these curious biped things,
With fore-legs gone, and yet no wings—
Where they all go to I don't know,
Nor why in the world they hurry so,
Nor what good use Heaven puts them to!
It wasn't my fault, you see, at all,
That my joints grew big, and my muscles small,
And so I missed of a rich man's stall.
I'm clumsy, crooked, stupid, slow,
Yet the meanest horse is a horse, you know,
And his ribs can ache with the kick or blow,
As well as the gloomiest sage that go.
O Lord, how long will they use me so?
And when may the equine spirit go
Where glorified horses stand in a row,
Switching their bright tails to and fro,
Careless of either wheel or whoa—
Where oats are always *apropos*,
And flies don't grow—
Oh, no!
O!

[*New York Mail.*

SOMNAMBULISM.—A young ecclesiastic used to rise every night and write sermons or pieces of music. To study his condition, an archbishop betook himself several nights to the chamber of the somnambulist, where he made the following observations:

The young man used to rise, to take paper and to write. Before he wrote music he would take a stick and rule the lines with it; he wrote the notes together with the words corresponding with them, with perfect correctness; or, when he had written the words too wide, he altered them.—The notes that were to be black he filled in after he had completed the whole. After completing a sermon, he read it aloud from beginning to end. If any passage displeased him, he erased it, and wrote the amended passage correctly over the other.

To ascertain whether he used his eyes, the archbishop interposed a sheet of paste board between the writing and his face.—He took not the least notice, but went on writing as before. The limitation of his perceptions to what he was thinking about was very curious. A bit of sanisced cake that he had sought for he ate approvingly; but when, on another occasion, a piece of the same cake was put into his mouth he spit it out without observation. The following instance of the dependence of his perceptions upon, or, rather, their subordination to, his preconceived ideas is truly wonderful. It is to be observed that he always knew when his pen had ink in it.—Likewise, if they adroitly changed his papers when he was writing, he knew if the sheet substituted was of a different size from the former, and appeared embarrassed in that case; but if the fresh sheet of paper which was substituted for that written on was exactly of the same size of the former, he appeared not to be aware of the change; and he would continue to read off his composition from the blank sheet of paper as fluently as when the manuscript itself lay before him; nay, more, he would continue his corrections and intralines his amended passage, writing it upon exactly the place on the blank sheet which it would have occupied on the written page.

SOMETHING CURIOUS.

Solution of the Enigma.—An exchange publishes the following curious enigma, which was furnished its readers for the benefit of students in geography:

"I was awakened one morning by a city in China, which was perched on a fence near my window. From an adjoining room I heard a division of Great Britain, and I called a river of South America to make a fire, as I felt a division of South America. On going down stairs, I found that one of the Lakes of North America had spilled a division of Europe on my highly prized city of Belgium, while putting on the table my breakfast, consisting of a division of Asia, seasoned with a city of South America, also a cape of Massachusetts, an Island of Oceanica, a city of France, stopped with a city of Ireland, and a bucket containing a river of Africa, and other fruits. I paid a division of Africa for my breakfast, and then asked one of the Islands of Oceanica for some sugar to feed an Island of Africa, that was hanging in my chamber.

"No, father isn't a drone, either," said a bright lad; "he's a philanthropist, and collects money for the heathen in Africa to pay for our house and things."

Gen. Canby's Election Order.

HEADQ'RS SECOND MILITARY DIST.,
CHARLESTON, S. C., Oct. 19, 1867.

General Orders No. 101.

By the terms of the Act of Congress entitled "An Act to provide for the more efficient government of the rebel States," passed Mar 2d, 1867, and of the Acts of March 23d, and July 19th, 1867, supplementary thereto, it is made the duty of the Commanding General of this Military District to cause a registration to be made of the male inhabitants of the State of North Carolina, of the age of twenty-one years and upwards and qualified by the terms of said Acts to vote, and after such registration is complete, to order an election to be held at which the registered voters of said late shall vote for or against a Convention, for the purpose of establishing a Constitution and civil government for the said State, loyal to the Union, and for delegates to said Convention—and to give at least thirty days' notice of the time and place at which said election shall be held; and the said registration having been completed in the State of North Carolina, It is ordered:

First, That an election be held in the State of North Carolina, commencing on Tuesday, the 19th day of November, 1867, and ending on Wednesday, the 20th day of November, 1867, at which all registered voters of said State may vote "For a Convention," or "Against a Convention," and for delegates to constitute the Convention—in case a majority of the votes given on that question shall be for a Convention, and in case a majority of the registered voters shall have voted on the question of holding such Convention.

Second. It shall be the duty of the Boards of Registration in North Carolina, commencing fourteen days prior to the election herein ordered, and giving reasonable public notice of the time and place thereof, to revise for a period of five days the Registration Lists, and upon being satisfied that any person not entitled thereto has been registered to strike the name of such person from the list; and such person shall not be entitled to vote. The Boards of Registration shall also, during the same period, add to such registers the names of all persons who at that time possess the qualifications required by said Acts—who have not already been registered.

Third. In deciding who are to be stricken from or added to the registration lists, the Boards will be guided by the law of March 2d, 1867, and the laws supplementary thereto, and their attention is specially directed to the Supplementary Act of July 19th, 1867.

Fourth. The said election will be held in each County or District at such places as may hereafter be designated, under the superintendence of the Boards of Registration as provided by law, and in accordance with instructions hereafter to be given to said Boards in conformity with the Acts of Congress and as far as may be with the Laws of North Carolina.

Fifth. All Judges and Clerks employed in conducting said election shall, before commencing to hold the same, be sworn to the faithful performance of their duties, and shall also take and subscribe the oath of office prescribed by law for officers of the United States.

Sixth. The polls shall be opened at such voting places at eight o'clock in the forenoon, and closed at four in the afternoon, of each day, and shall be kept open during those hours without intermission or adjournment.

Seventh. No member of the Board of Registration, who is a candidate for election as a delegate to the Convention, shall serve as a Judge of the election in any County or District which he seeks to represent.

Eighth. The Sheriff and other peace officers of each County are required to be present during the whole time that the polls are kept open, and until the election is completed; and will be made responsible that there shall be no interference with Judges of elections, or other interruption of good order. If there should be more than one polling place in any County, the sheriff of the County is empowered to make such assignments of his deputies, and other peace officers, to the other polling places, as may, in his judgment, best subserve the purposes of quiet and order; and he is further required to report these arrangements in advance to the Commander of the Military Post in which his County is situated.

Ninth. Violence, or threats of violence, or of discharge from employment, or other oppressive means to prevent any person from registering, or exercising his right of voting, is positively prohibited, and any such attempts will be reported by the Registrars or Judges of elections to the Post Commander, and will cause the arrest and trial of the offenders by military authority.

Tenth. All bar rooms, saloons, and other places for the sale of liquors by retail, will be closed from 6 o'clock of the evening of the 18th of November, until 6 o'clock of the morning of the 21st of November, 1867, and during this time the sale of all intoxicating liquors at or near any polling place is prohibited. The police officers of cities and towns, and the Sheriffs and other peace officers of Counties, will be held responsible for the strict enforcement of this prohibition, and will promptly arrest and hold for trial all persons who may transgress it.

Eleventh. Military interference with elections "unless it shall be necessary to repel the armed enemies of the United States, or to keep the peace at the polls," is prohibited by the Act of Congress approved February 25th, 1865, and no soldiers will be allowed to appear at any polling place, unless as citizens of the State they are qualified and are registered as voters, and then only for the purpose of voting; but the Commanders of Posts will keep their troops well in hand on the days of election, and will be prepared to act promptly if the civil authorities are unable to preserve the peace.

Twelfth. The returns required by law to be made to the Commander of the District of the results of this election, will be rendered by the Boards of Registration of the several registration precincts through the Commanders of the Military Posts in which their precincts are situated and in accordance with the detailed instructions hereafter to be given.

Thirteenth. The number of delegates to the Convention is determined by law and is the number of members of the most numerous branch of the Legislature for the year eighteen hundred and sixty, and this number, one hundred and twenty, is apportioned to the representative Districts of the State in the ratio of registered voters as follows:

RAILROADS.

ATLANTIC & N. C. RAILROAD AND NORTH CAROLINA GRAND TRUNK RAILROAD,

From Charlotte and all Points on the N. Carolina and its Connecting Railroads, to the Seaboard at Newbern and Morehead City.

THE STATE OWNS THREE FOURTHS OF the North Carolina Railroad and three-fourths of the ATLANTIC & N. C. RAILROAD. This is the

STATE LINE,

To its OWN SEAPORTS and on its OWN ROADS. All other lines are in opposition.

A six per cent dividend on this line will save the people from taxation $295,000 per annum.

Under a resolution of the stockholders of the N. C. Railroad, all Freights are to go *via* Goldsboro', unless otherwise specially directed by shippers.

When at Goldsboro', you are only sixty miles from the shipping point, instead of one hundred and sixty via Weldon, and eighty via Wilmington. Our Steamers are equal to any other line, both for Freight and Travel. Time as short as by any other, and as cheap.

THIS is the Line

To ENCOURAGE. You get dispatch, safety, but one handling, and less Railroad transportation than by any other line.

Three-fourths of the PROFITS made on this line go directly into the STATE TREASURY, and if encouraged, you will soon be relieved from heavy taxation of at least two hundred and ninety-five thousand dollars.

The Railroads composing the N. C. GRAND TRUNK RAILWAY LINE have recently agreed to unite in a

GREAT THROUGH LINE

Route to all the Northern Markets, on equal terms and charges, via our own ports and from the North.

Cars run through to all points without breaking bulk.

For information about shipping, apply to Messrs.

WHEDBEE & DICKINSON, Baltimore.

Notice to Shippers of Freight.

THE SEABOARD INLAND AIR LINE

Via Portsmouth, Va.,

IS THE ONLY DIRECT LINE BETWEEN Boston, New York, Philadelphia, Baltimore and the Carolinas.

It is express in point of speed and safety of Freights, being from

FORTY TO SEVENTY HOURS

in advance of all other lines, and at as low rates.

It offers daily communication with Baltimore, daily communication with Philadelphia.

Five Steamers each week to and from New York.

Two Steamers each week to and from Boston.

It is the only line having these advantages, and by which there is but one handling of freight.

Cars are loaded at the shutes in Portsmouth and are run through to destination.

Be careful to direct your Consignees to ship only

From Baltimore, by the Norfolk or Bay Line Steamers, foot of Union Dock.

From Philadelphia, by the Annamessic Line, Philadelphia, Wilmington and Baltimore Depot, or by Clyde's Line, 14 South Delaware Avenue.

From New York, by the Old Dominion Steamship Line, Pier 37 North River.

From Boston, by the Norfolk Steamship Line, end of Central Wharf.

All losses, damages, or overcharges promptly adjusted on application to

WE inaugurated and are the *Great through Inland Air Line Route* to all the Northern Markets, and have successfully worked the Line to the entire satisfaction of Shippers, North and South, for the last ten years, as the *ten Thousand* Shippers in North and South Carolina will testify. We paid the State near Seven Hundred Thousand Dollars for her Interest in this Road—thereby saving the people from Taxation for all time to come 140,000 per year; and we unhesitatingly declare that we can and will give more dispatch to all points, North and South, than any other Line.

Fees for all the Lectures, $140; Matriculation, (paid but once) $5; Practical Anatomy, $10. Payment required in advance.

A Cheap Cotton Press.

FARMERS, BEFORE YOU BUY A PRESS OR build a screw, enquire into the merits of the

GODWIN COTTON PRESS.

Hear what the following reliable gentlemen say:

I have seen Mr. J. H. Godwin's Cotton Press at work at Mr. P. E. Smith's plantation, and it does all that he says it does in his advertisement, and more. I think it superior to any other mode of packing Cotton, and saves both time and labor.
W. R. SMITH.

I have used the above mentioned Press, and consider it the best I ever saw for packing Cotton.
THOS. J. VAUGHAN.

I have packed about 100 bales of Cotton with Mr. J. H. Godwin's Cotton Press, and take pleasure in recommending it to the farmers as a great labor-saving machine. It does not cost more than half as much as a Screw, and is worth twice as much.

It is so convenient, and takes fewer hands to do as much work as a Screw. I would pay the price of a Press, rather than allow a man to put up a screw on my place for nothing.
D. EDMONDSON.

I have used the above mentioned Cotton Press, and it does better than a Screw. Takes less hands, does not waste Cotton, and is much cheaper
J. H. CURRY,
Sup't W. H. Smith's Plantation.

I have packed about 70 bales with Godwin's Cotton Press, and am certain it is the best, cheapest, most compact and durable Press in existence, costing only half, at first, and lasting twice as long as a Screw.
PETER E. SMITH.

I have never seen the Cotton Press of Mr. Jno. H. Godwin at work, but have no doubt, from the certificates of the gentlemen above, that it performs all they say of it. I know them to be gentlemen of character and veracity, and that their statements are entitled to credit.
RICHARD H. SMITH.

The last name is one of our most honorable and respectable citizens, well known as a former member of the Legislature. I see this PRESS is combining more advantages for packing than any now in use; it is adapted to large or small farms, and is so simple and cheap, that any good mechanic can build it. It is well adapted to

WATER-POWER.

It is 10 or 11 feet wide, 3 feet and 3 inches thick; top of frame above ground, 16 feet; highest point of Lever, 18 or 19 feet. The platform on which the bale is turned out, is 10 feet above ground.

Length of box, 10 feet in the clear.

Length of bale 5 feet, by 2 feet 4 inches. Weight 500 or 600 lbs. It is put up flat against the Lint Room, thereby preventing the scattering of the Cotton and need of baskets.

The Press is chiefly built of scantlings.

The Inventor has spared no pains in his experiments to make it practicable, convenient and cheap. I charge

$25 for a Single Right.

The total cost, including cover and everything, is about $150. Much of that, farmers are not in the habit of including as cost.

I think I can sell County rights at about $10 by the hundred.

THE FIRE EXTINGUISHER.

This Portable, Self-Acting Fire Engine

IS OFFERED TO THE Public as a ready, certain and speedy means of preventing LARGE CONFLAGRATIONS.

Until the invention of the

Portable, Self-Acting Fire Engine,

Fires have been met by means too slow, too late and too cumbrous. But few persons in this country have the advantage of large hand or Steam Fire Engines, and those few often suffer a total loss of their property by reason of the great length of time consumed in sending for and getting them into working order.

BUT NOT SO WITH THE FIRE EXTINGUISHER,

which, being kept charged and standing in your House, Store or Factory, is always

Ready for Instant Service.

The fire can be extinguished and your property saved without loss or damage, or even an alarm of Fire.

The first few minutes of conflagration decide the fate of the property; a little fire is quickly put out, which, being suffered, rivers cannot quench.

THE EXTINGUISHER, being very simple in its operation, and entirely self-propelling, requires no previous skill or practice to operate it, and being so light, portable and self-acting, is capable of being used in any place, by any person, male or female.

It puts out all fires, arising from whatever cause. You are saved from the immense water damage caused by large Engines.

You can effect insurance on your property

At Lower Rates,

if protected by the Extinguisher.

The Extinguisher is no humbug, as thousands of good men in Europe and America will testify. I have already put these little Engines into some of our best Factories and largest Schools in N. C.

No House, Store, Factory, or Corporation is safe without them.

The price is as nothing, compared with the protection they afford.
